UP Flight Suit – BALTORO / KHUMBU

Flying suits are great for flying, but less ideal on the ground. Combo suits, consisting of jacket and pants which may be buttoned together, are the obvious solution – and UP International is introducing our own!

The Baltoro jacket is sewn from a dual-layer laminate with a breathable membrane and sports welded seams. It has a water resistance value of up to 5000mm water column, is internally lined with mesh to improve moisture transport, and all zippers

are made by YKK. When not in use, the entire jacket fits inside the adjustable hood.

As this jacket is made specifically for flying we have renounced the industry standard ventilation slits in the armpits – our tests have shown that these make the jacket draughty in the air, even when closed. Adequate ventilation is attained instead through the long zippered external front pockets. Three internal pockets and watertight external zippers complete the picture of this multi-purpose outdoor jacket, which may be connected to the Khumbu pants with simple press studs.

The Khumbu pants are made from the same dual layer laminated cloth as the jacket. The legs both have full-length zippers along the exterior, to allow putting them on even with big boots. Two side pockets with watertight zippers, an elastic waist band and snow cuffs at the ankles – including elastic bands to go under the soles of the boots – make this the most versatile and complete outdoor bib around.

The Baltoro jackets is available in Black/Sulphur or Sulphur/Black in sizes S, M, L and XL for men, and S, M and L for women.

AirDesign Speedarm

Our stylish AirDesign branded speedarms keep you warm and reduce drag while maintaining maximum freedom of movement.

The blend of Polyamide and Elastane ensures long lasting elasticity and a good fit.

To keep the wrists warm a thumb hole in the sleeve lets you pull the arms down over your hands to prevent the sleeve riding up.

80% Polyamide, 20% Elastane

Size S/M: body height 150-180 cm

Size L/XL: body height 166-195 cm

UP Balaclava CERRO TORRE

“WARMER IN ALL CONDITIONS”

The UP balaclava “Cerro Torre” has been a valued companion for cold-weather pilots all over the world for years. We’ve updated the design for 2009, making the new Cerro Torre an even more complete package for you to enjoy your flying in any kind of weather.

Features include the mesh mouth cover, the long neck section that keeps draught at bay, and the flat seams which serve to ensure that the hood remains comfortable beneath your helmet even after many hours in the air.

Sizes: one size fits all

UP Beanie “EL CAP”

“WARMER IN ALL CONDITIONS”

Look cool while staying warm! We have made our knit beanie for these two purposes and we think it fulfills them perfectly. UP logo on the front. One size fits all.

UP T-Shirt Lady

“FASHION & STYLE”

No tee collection without a model that celebrates the little differences. The UP Lady is cut for the girls, uses cotton with elastathane and comes in girls sizes S to XL.

UP T-Shirt 1972

“FASHION & STYLE”

The 1972 logo celebrates UP’s unmatched heritage in the free-flying business. Colours are orange or olive, material is 100% cotton and sizes S to XL.

UP T-Shirt “Big Star”

“FASHION & STYLE”

The Big Star logo is a UP classic and spices up any day out. Brown or white, all cotton in sizes S to XL.

UP Speed Top “RACE”

SMOOTH LOOKS

Speed tops are used by comp pilots to keep drag down, or by dune warriors to keep sun and sand at bay. We have a new one ready for them all! The UP Speed Top is used over the windbreaker to keep drag down on cold days, or alone or over a fleece top on warmer days. Zippered collar and sizes M, L and XL to choose from complete the very smooth picture
